**This could be  
America....**

**Since we didn't kick Bush out.**

Our Democracy is under assault by radical neo-conservatives and their hand-picked activist judges. They are using the courts to get around the Constitution to impose their radical agenda.

The Radical Neo-Conservative Agenda includes:

- Brutal Imperial and Colonial War Without End.
- Curtailment of Civil Liberties: Our constitutional rights to dissent, freedom of assembly, speech, and privacy.
- Cynical Manipulation of Emotions and Religious Beliefs for Partisan Gain.
- Destruction of Worker Safety, Welfare, Environmental, and Social Security Laws.
- Politicization of Science.

**Radical Neo-Conservatives Want to Impose Their Values  
On America.**

**Get Active in Local and National Politics If You Want to Save America.**
